

# Tier-1 exploration assets in Africa's most prolific copper districts

**Investor Presentation**  
June 2026

# Disclaimer

---

The information contained in these slides and this presentation is being supplied to you by **ARC MINERALS Ltd.** ("the Company") solely for your information and may not be reproduced or redistributed in whole or in part to any other person. Recipients of these slides and/or persons attending this presentation who are considering a purchase of ordinary shares in the Company are reminded that any such purchase must be made solely on the basis of the information that the Company has officially released into the public domain. Whilst all reasonable care has been taken to ensure that the facts stated in these slides and this presentation are accurate and the forecasts, opinions and expectations contained in these slides and this presentation are fair and reasonable, the information contained in this document has not been independently verified and accordingly no representation or warranty, express or implied, is made as to the accuracy, fairness or completeness of the information or opinions contained in these slides or this presentation and no reliance should be placed on the accuracy, fairness or completeness of the information contained in these slides and this presentation.

None of the Company, its shareholders or any of their respective advisers, parents or subsidiaries nor any of their respective directors, officers or employees or agents (including those of their parents or subsidiaries) accepts any liability or responsibility for any loss howsoever arising, directly or indirectly, from any use of these slides or this presentation or their contents. These slides and this presentation do not purport to contain all information that a recipient may require and is subject to updating, revision and amendment in any way without notice or liability to any party. These slides and this presentation do not constitute a recommendation regarding the shares of the Company. Recipients of these slides and this presentation should conduct their own investigation, evaluation and analysis of the business, data and property described therein. If you are in any doubt about the information contained in these slides or this presentation, you should contact a person authorised by the Financial Conduct Authority who specialises in advising on securities of the kind described in these slides and presentation. Certain statements within this presentation constitute forward looking statements. Such forward looking statements involve risks and other factors which may cause the actual results, achievements or performance expressed or implied by such forward looking statements. Such risks and other factors include, but are not limited to, general economic and business conditions, changes in government regulations, currency fluctuations, the gold price, the Group's ability to recover its reserves or develop new reserves, competition, changes in development plans and other risks. There can be no assurance that the results and events contemplated by the forward-looking statements contained in this presentation will, in fact, occur. These forward-looking statements are correct or represent honestly held views only as at the date of delivery of this presentation. The Company will not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events, circumstances and unanticipated events occurring after the date of this presentation except as required by law or by regulatory authority. By accepting these slides and/or attending this presentation, you agree to be bound by the provisions and the limitations set out in them or imposed by them and to keep permanently confidential the information contained in these slides or this presentation or made available in connection with further

enquiries to the extent such information is not made publicly available (otherwise through a breach by you of this provision). Some of the statements are the opinions of the Directors.

This document has not been approved by a person authorised under the Financial Services and Markets Act 2000 ("FSMA") for the purposes of section 21 FSMA. In the United Kingdom, this presentation is exempt from the general restriction in section 21 FSMA on the communication of invitations or inducements to engage in investment activity pursuant to the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Financial Promotion Order") on the grounds that it is directed only at the following, being persons who the Company reasonably believes to be: (a) persons having professional experience relating to investments (being "Investment Professionals" within the meaning of articles 19(5) of the Financial Promotion Order); (b) persons who fall within article 49 of the Financial Promotion Order (high net worth companies, unincorporated associations or partnerships or the trustees of high value trusts), or (c) other persons who have professional experience in matters relating to investments and to whom these slides and this presentation may otherwise be lawfully communicated (all such persons together being referred to as "Relevant Persons"). By attending this presentation, you represent and warrant that you are a Relevant Person.

Any person who is not a Relevant Person should not rely upon or act upon these slides or this presentation. The distribution of these slides in other jurisdictions may be restricted by law and persons into whose possession these slides may come should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of any such other jurisdiction. The slides are not for distribution outside the United Kingdom and, in particular, the slides or any copy of them should not be distributed, published, reproduced or otherwise made available in whole or in part by recipients to any other person, directly or indirectly, by any means (including electronic transmission) either to persons with addresses in Canada, Australia, Japan, the Republic of South Africa and the Republic of Ireland or to persons with an address in the United States, its territories or possessions or to any citizens, nationals or residents thereof, or to any corporation, partnership or other entity created or organised under the laws thereof. Any such distributions could result in a violation of Canadian, Australian, Japanese, South African, Irish or United States law.

These slides and this presentation do not constitute, or form part of, a prospectus relating to the Company nor do they constitute or contain any invitation or offer to any person to underwrite, subscribe for, otherwise acquire, or dispose of any shares in the Company or advise persons to do so in any jurisdiction, nor shall they, or any part of them, form the basis of or be relied on in any connection with any contract or commitment whatsoever

# Snapshot

## Targeting Tier-1 copper discoveries in Botswana and Zambia

Tier-1 copper discoveries are clustered.  
Arc is positioned within two of these clusters.

### Tier-1 Discovery Potential

High-conviction exposure to two proven copper districts, positioned within core discovery corridors

### Strategic Proximity

Projects are proximal to major world class Tier-1 copper operations

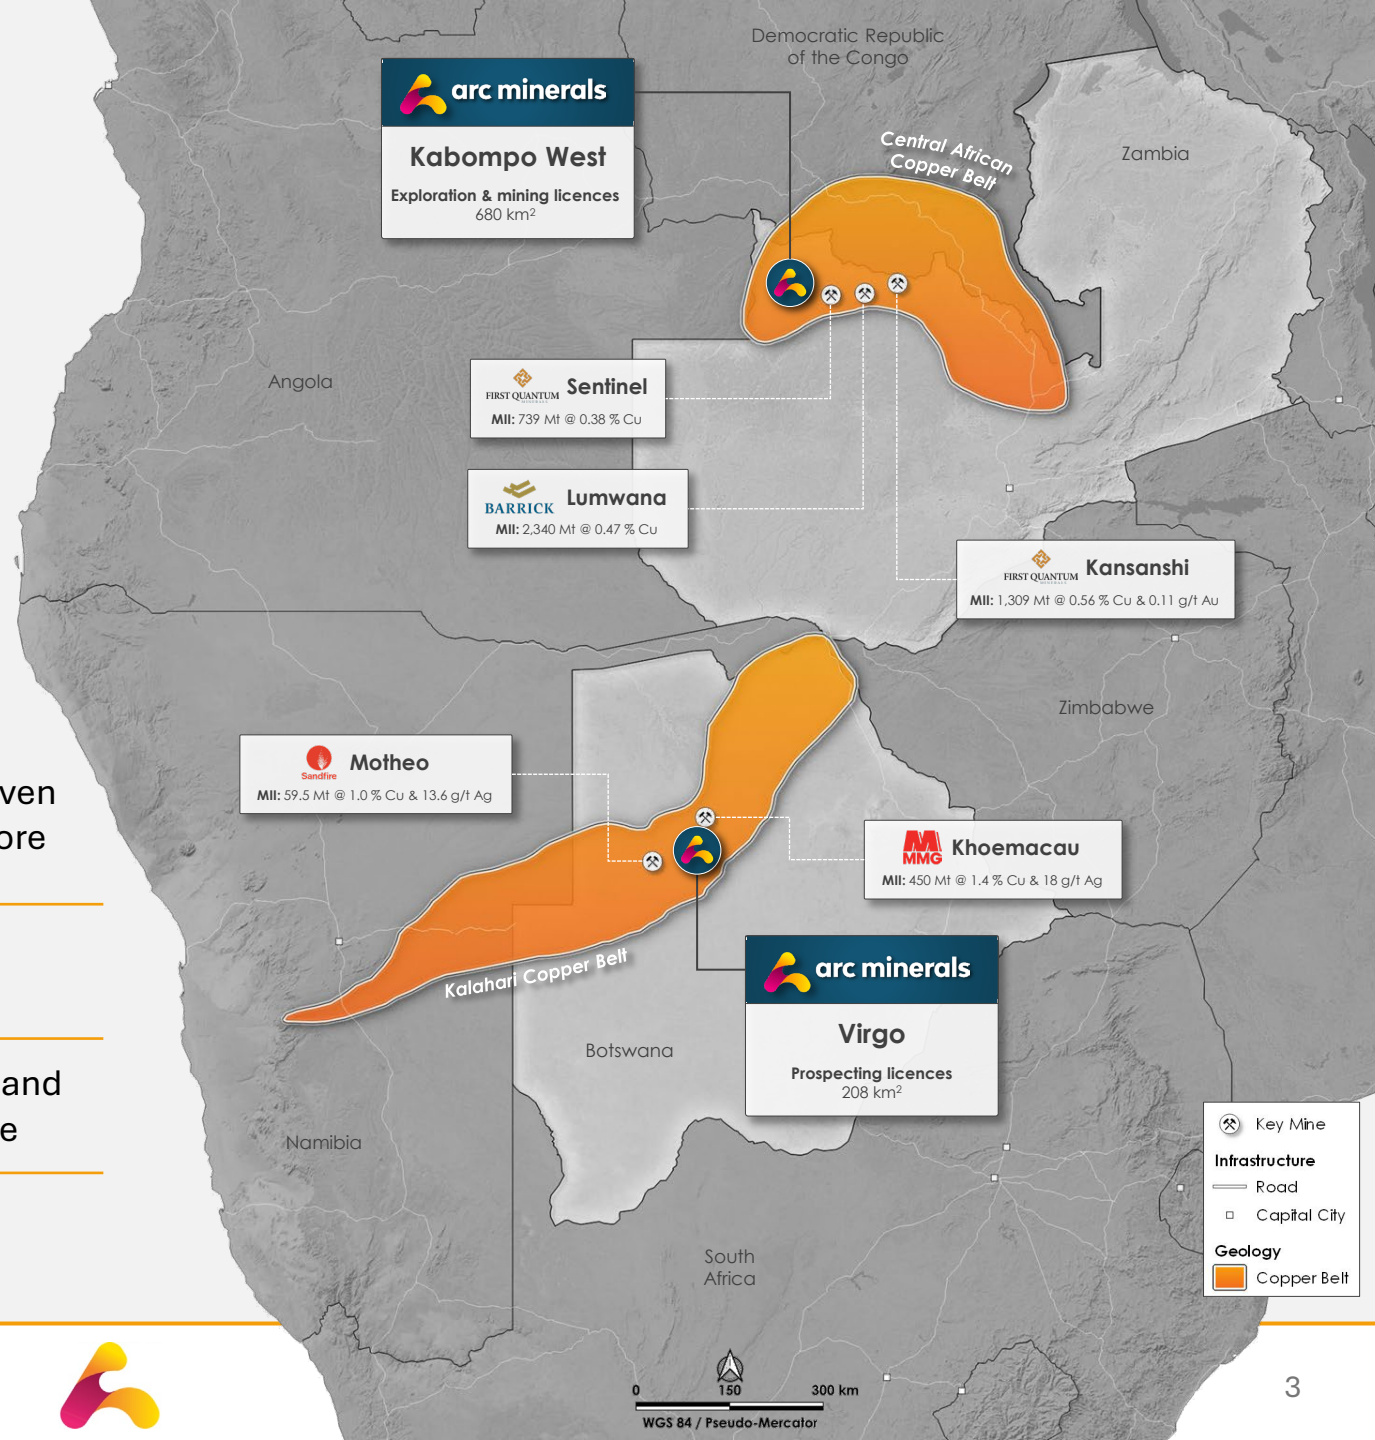

### World Class Endowment

Both districts are highly prospective and have considerable exploration upside

### Near-Term Catalysts

Defined value pathways through upcoming geophysics and drilling

# Virgo Project Botswana

Unique location with confirmed mineralisation  
and continued exploration along a proven  
contact

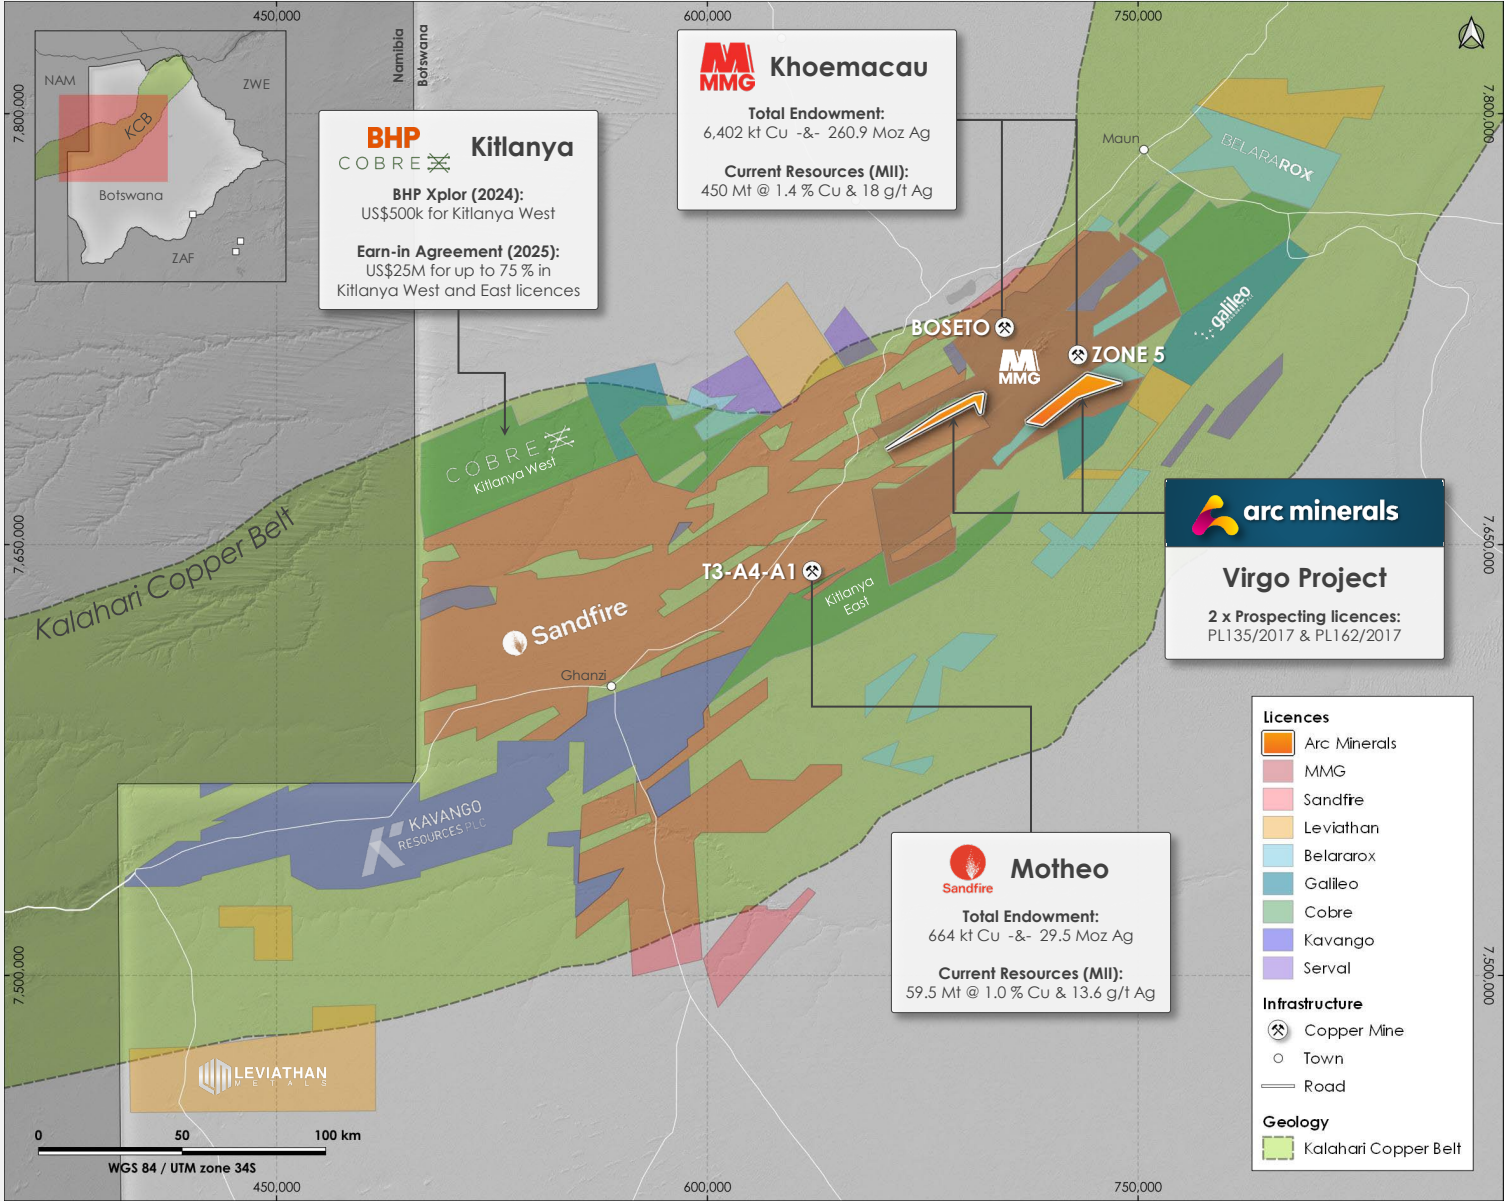

# The Kalahari Copper Belt (KCB)

Underexplored terrain with > 7 Mt Cu and 290 Moz Ag total endowment to date

Two licences (208.3 km<sup>2</sup>) strategically located within the KCB, adjacent to MMG's Khoemacau

Targeting sediment-hosted Cu-Ag deposits similar to Khoemacau (MMG) and Motheo (Sandfire)

The KCB has attracted major mining companies incl. BHP in Botswana and Rio Tinto in Namibia

# Inside the MMG Corridor

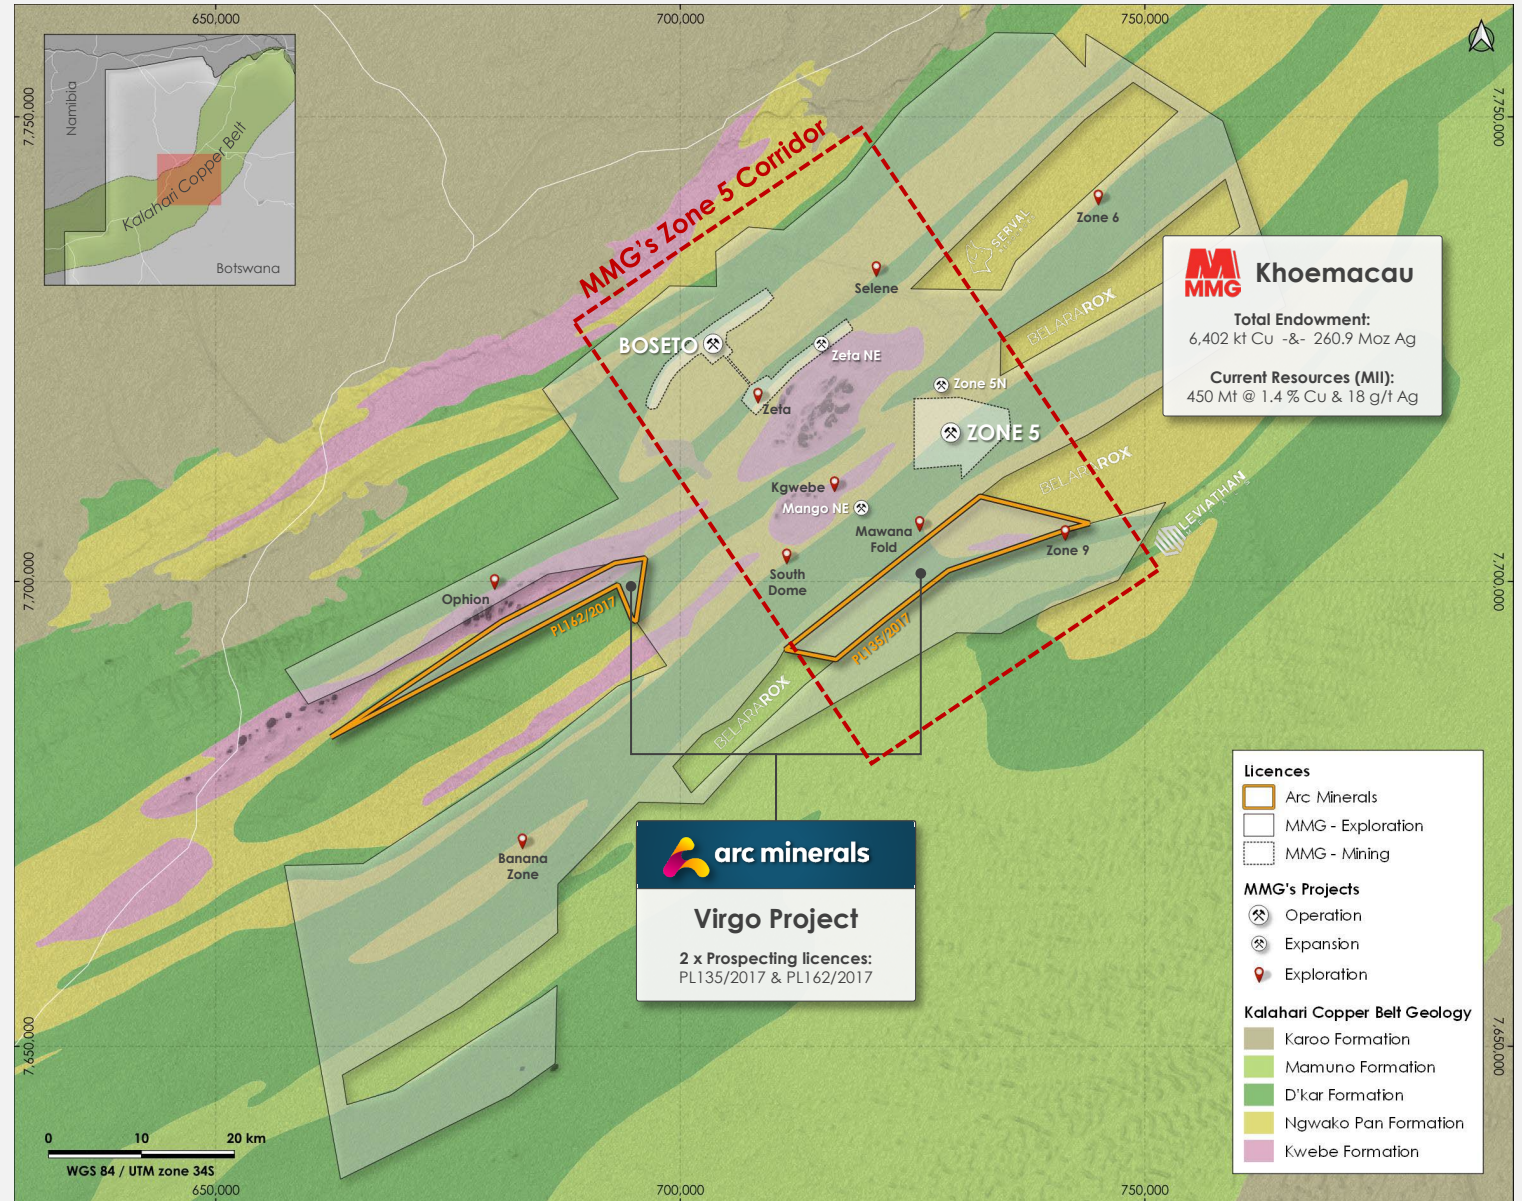

The only junior with a licence inside MMG's Zone 5 Corridor

All known KCB deposits occur at or near the key DKF-NPF contact\*

Arc's PL135/2017 (138.6 km<sup>2</sup>) situated over a DKF-NPF contact and surrounded by MMG licences

Uniquely located within the Zone 5 corridor that hosts the major deposits / targets of Khoemacau

\*D'Kar Formation - Ngwako Pan Formation contact:  
Principal mineralised horizon for sediment-hosted copper deposits in the KCB

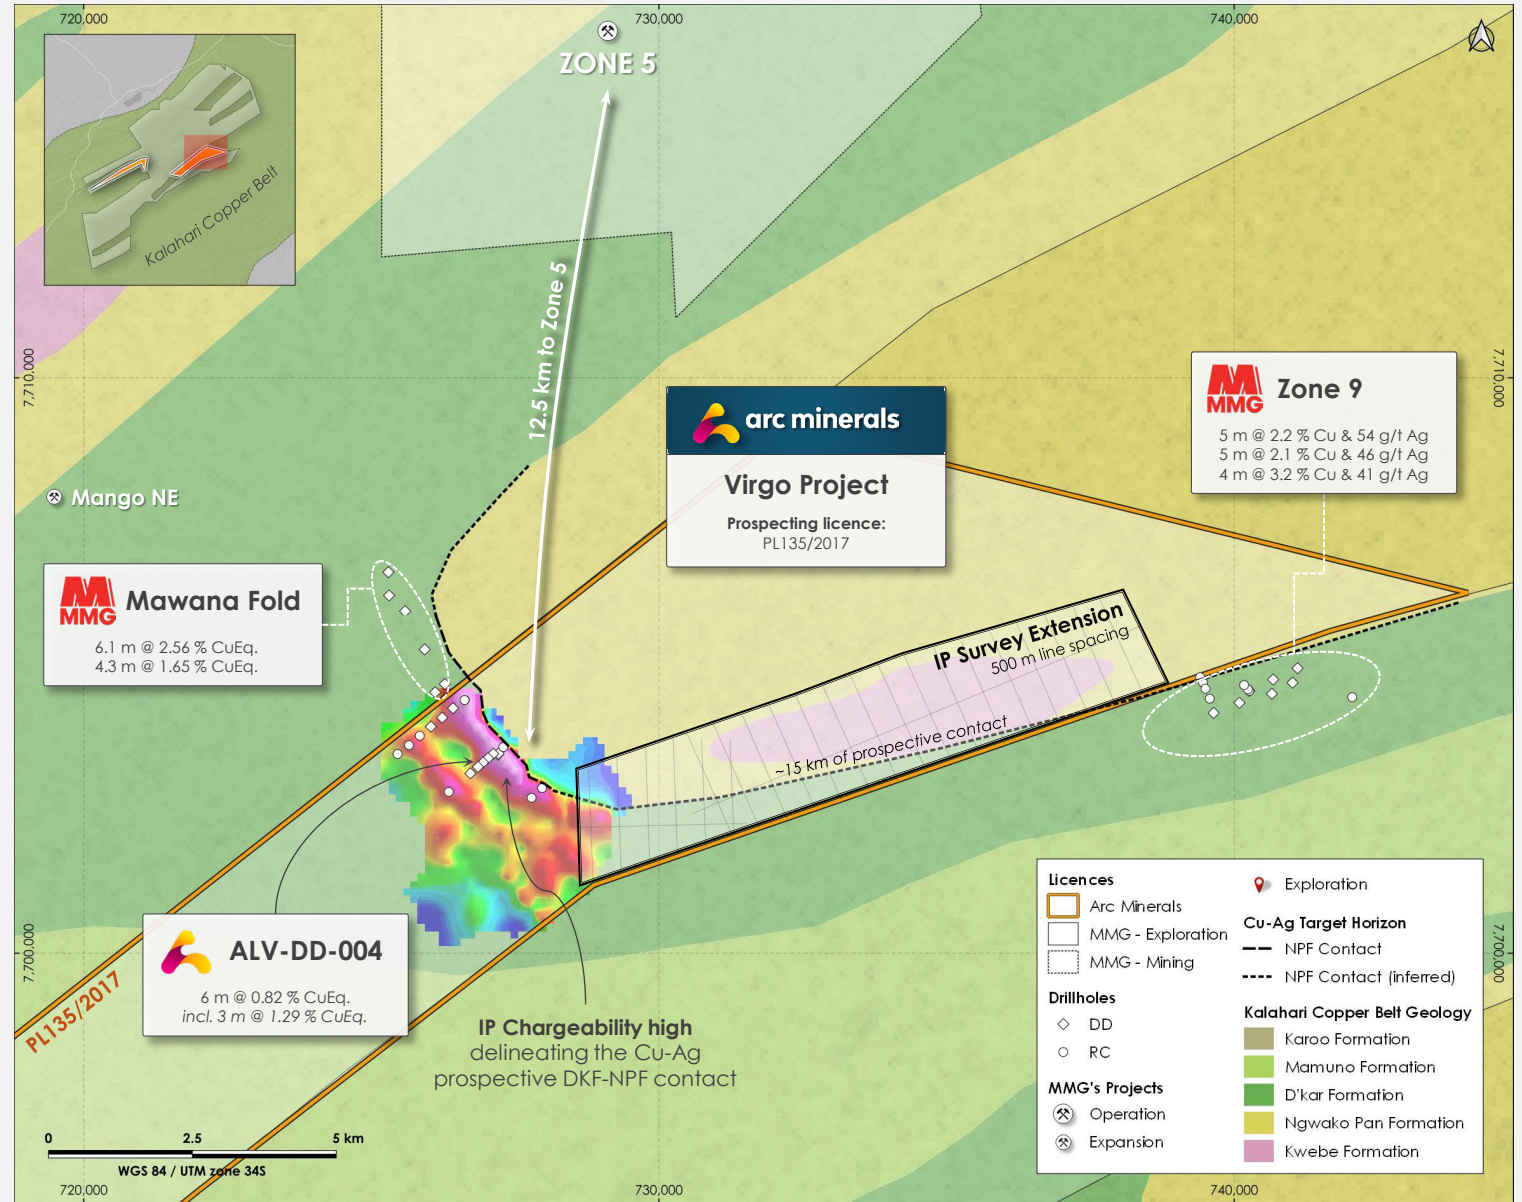

# The Key Geological Target

Focus on refining & extending the contact zone ahead of drilling

Up to ~15 km of prospective DKF-NPF contact currently being tested

MMG's Zone 9 and Mawana Fold are targeting both along-strike extensions of this contact

Contact is well-defined by IP chargeability with a further 52.5 line km survey planned

# What Comes Next

## Building value through disciplined exploration

Planned Timeline – Virgo Project (Indicative)

# Kabompo West Project Zambia

Advanced exploration in a proven copper region, with widespread mineralisation across a large-scale system

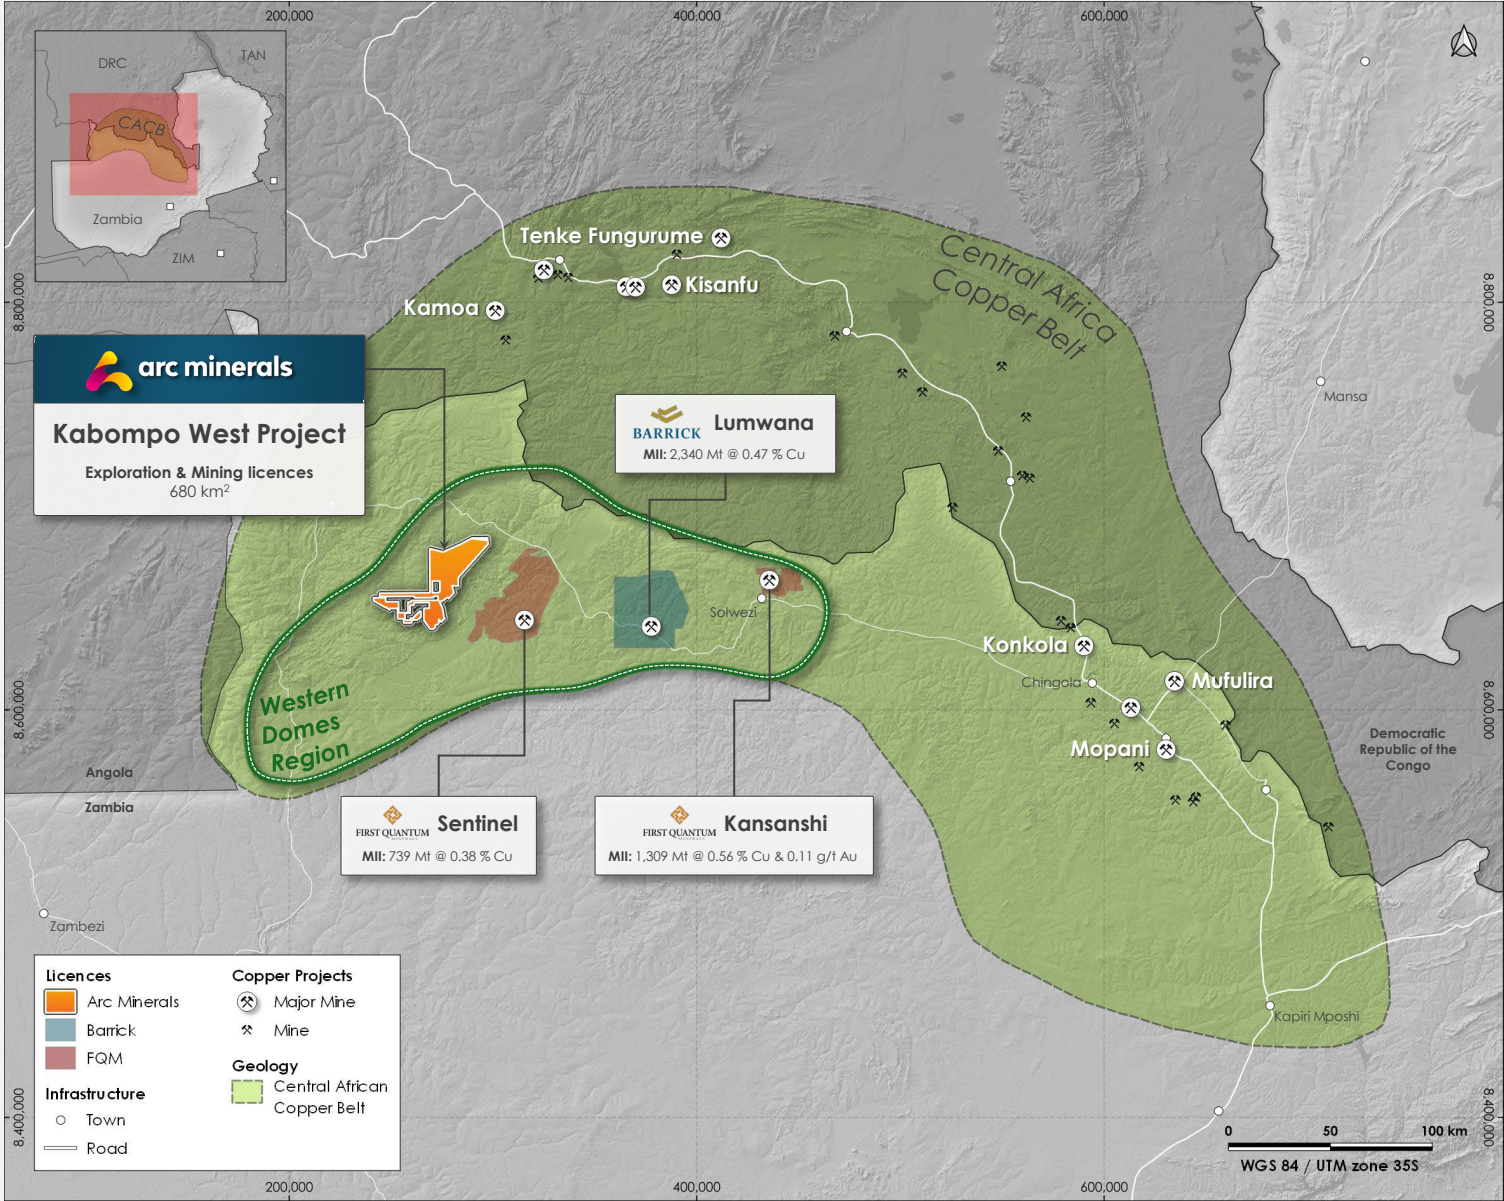

# The Central African Copper Belt (CACB)

World class mining district with a total endowment of > 250 Mt CuEq.

Kabompo West licences (680 km<sup>2</sup>) located within the Western Domes Region of the CACB in Zambia

This region hosts multiple Tier-1 mines, including Lumwana (Barrick), Sentinel and Kansanshi (FQM)

Targeting sediment-hosted Cu deposits within the highly prospective Roan Formation

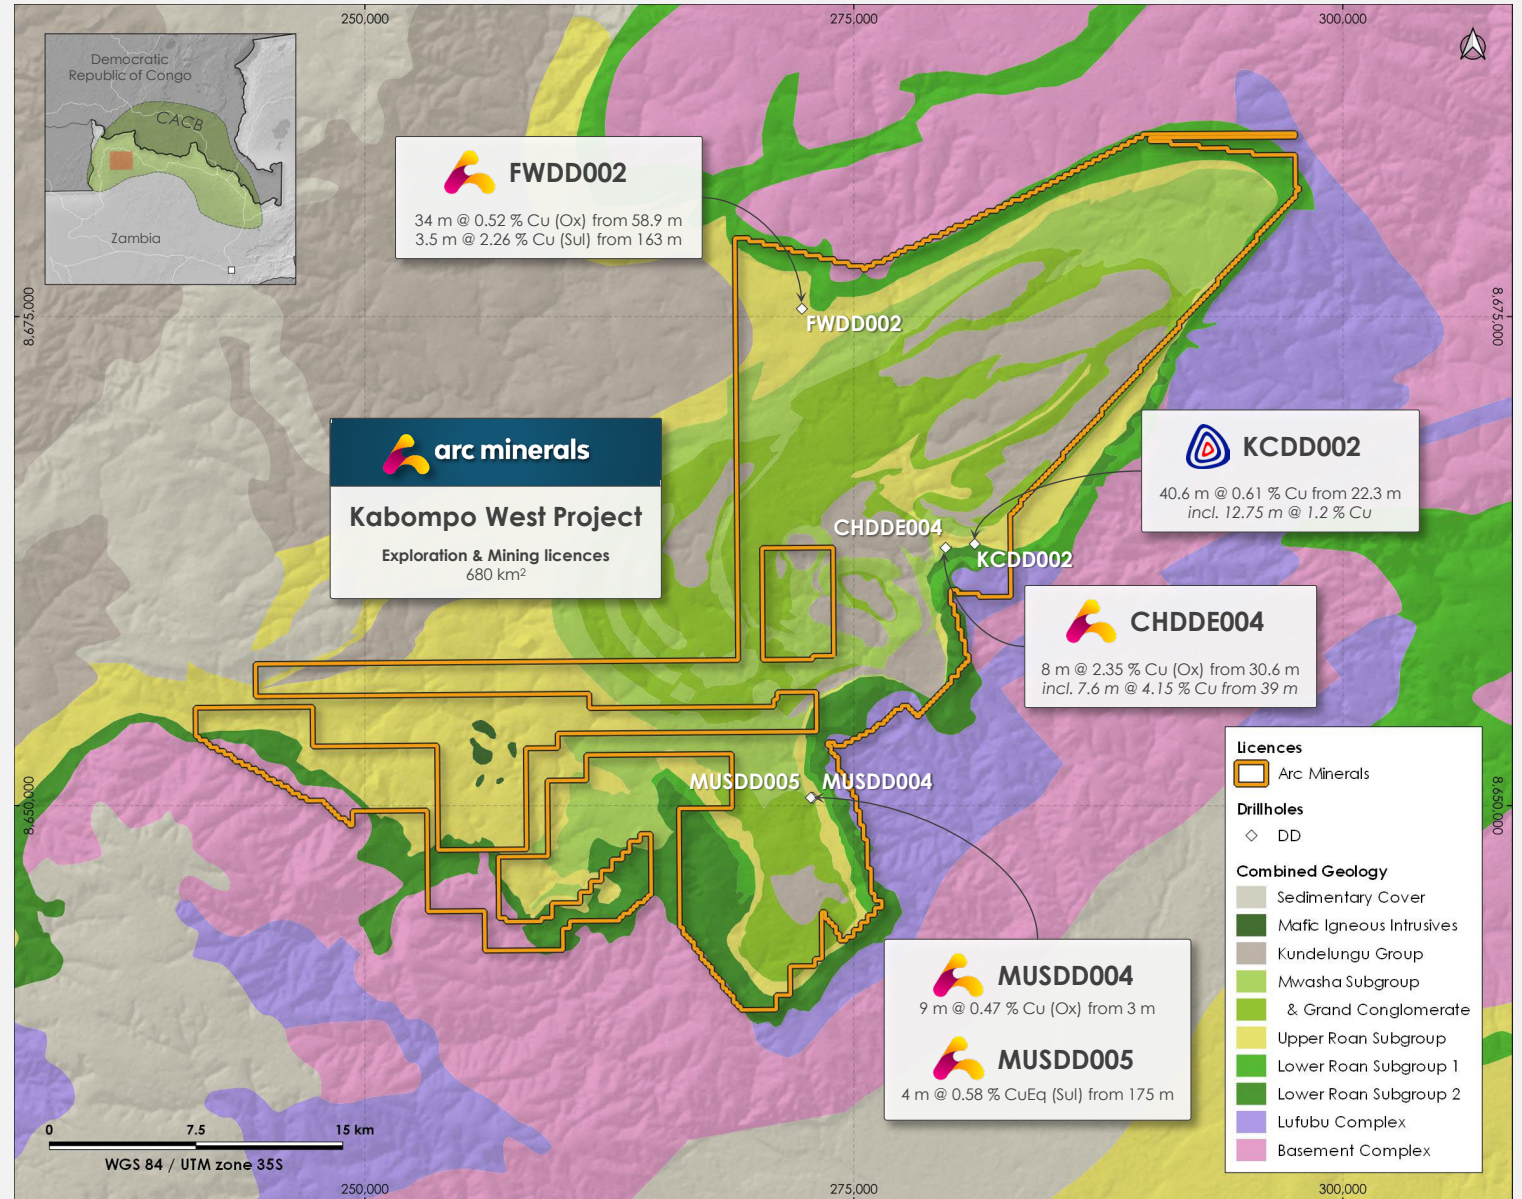

# System-scale Potential

Copper mineralisation extends beyond the existing deposits

Drilling to date has only tested a small portion of a district-scale land holding with significant potential

Oxide and sulphide mineralisation indicates a well-developed, vertically-extensive copper system

Limited drilling relative to a largely untested licence package suggests significant exploration upside

# Tier-1 Asset with Dual Strategy Approach

Clear strategic path to value creation

---

Work to date (Arc & Anglo): Regional geological interpretation & target generation

- ~27,000 m total **drilling confirming widespread mineralisation** across multiple prospects
- High-grade results: **18 m @ 2.35% Cu; 39 m @ 1.47% Cu**
- **Recent standout intercept: 40.6 m @ 0.61% Cu** from near surface
- **Multiple discoveries:** Cheyeza, Muswema (~5 km mineralised trend), Fwiji
- **Dual strategy:** strategic partner engagement and preparation for standalone drilling

# Investment Case

- High-conviction copper exposure across two proven districts
- Value creation through discovery and strategic transactions
- Fully funded for upcoming drilling programme

# Valuation Comparison

## Near term upside potential

Company	Key Location	Stage	Exchange	Market Cap
Prospect Resources	Domes Region	Development	ASX	£116m
Midnight Sun Mining	Domes Region	Discovery	TSXV	£93m
Leviathan Metals	KCB	Exploration	TSXV	£56m
<b>Arc Minerals</b>	<b>Domes Region &amp; KCB</b>	<b>Exploration</b>	<b>AIM</b>	<b>£17m</b>

### Arc's Differentiators

#### Exposure to two proven copper districts

Botswana and Zambia within established copper systems

#### Positioned within core Tier 1 discovery corridors

MMG Zone 5 corridor and Kabompo Dome

#### Early & advanced staged projects within comparable geology

Pre-resource exposure to districts with established discoveries

\*Market caps (GBP) at COB 22 June 2026

# Appendix: Team

Experienced mining, finance, & legal leadership
